

# RADIUS GROUP PENSION SCHEME

## YEAR ENDED 5 APRIL 2021

---

### CHAIRMAN'S STATEMENT REGARDING DC GOVERNANCE

This statement is produced pursuant to Regulation 23 of the Occupational Pension Schemes (Scheme Administration) Regulations 1996, as amended by subsequent legislation. It explains how the Radius Group Pension Scheme ("the Scheme") is meeting the governance standards that apply to occupational pension schemes that provide money purchase benefits (i.e. Defined Contribution schemes – DC). Within the Scheme, money purchase benefits relate to the Scheme's DC Section, and additional voluntary contributions ("AVCs") that members could pay within the Scheme's DB Section. Please note that the Scheme is not being used by the Company to comply with their duties under the automatic enrolment legislation. A separate group personal pension plan is in place to meet this requirement. The Scheme is closed to new members and is no longer accepting new contributions.

#### **Default arrangement**

Members of the Scheme who do not make an explicit choice regarding the investment of their funds will be invested in the default strategy arrangement chosen by the Trustee with the advice of their Investment Consultant. Note that the Scheme ceased contributions on 31 January 2009 and from that date, all of our members' DC accounts had no additional contributions invested. Each member's accumulated DC account remains invested in one of the investment options available.

Under the Scheme's default strategy, unless members have selected their own retirement age, members aged under 59 and a half are wholly invested in the L&G Global Equity 70:30 Index Fund, with the intention to expose savings to good growth opportunities. From age 59 and a half onwards, exposure to the Global Equity Fund is reduced annually and switched to the L&G AAA-AA-A Bonds Over 15 Year Index and L&G Cash Funds, so that when a member reaches their chosen retirement age (or age 65 when an alternate retirement age has not been selected) 25% of members' funds are held in the Cash Fund and 75% in the Long Dated Bond Fund. This is so that the member's account is positioned to be used to take 25% as a cash lump sum (in line with current legislation) with the rest being used to purchase an annuity. The strategy means that at retirement a member is better protected against adverse investment market movements and changes to interest rates, which could dramatically affect the amount of cash and pension available to take.

Assets remain invested in the default arrangement unless a member chooses otherwise. Members have the option to self-select their own investments from the three funds that are used in the default strategy and they may select these funds in any proportion they choose.

During the period covered by this statement there have been no significant changes to the Scheme's investment strategy. A review has not been undertaken for some time mainly due to the uncertainty around the existence of a GMP underpin within the Scheme. Having resolved this issue, the Trustee is now in active discussions with the Company about the future of the Scheme and in particular considering the options for moving to a Master Trust.

The default arrangement is described in further detail in the Scheme's Statement of Investment Principles ("SIP") which was updated in July 2020 to incorporate new regulations that the Trustee must follow regarding how they engage with their investment managers; a copy of the SIP is appended to this governance statement. The SIP sets out the Trustee's investment objectives, which broadly speaking are to set an investment strategy that offers an appropriate range of investment options to offer sufficient investment flexibility for members of all ages. The SIP will be reviewed a minimum of every three years or as soon as any significant developments in investment policy or member demographics take place. The next SIP review is due to take place by July 2023.

The Trustee continually monitors the performance of the Scheme's investments throughout the year and receives quarterly performance reports from L&G. We are happy with the performance over the period covered by this statement and we believe the Scheme's investment strategy remains on track to meet our aims and objectives.

The Trustee has set up processes to publish relevant information from this Statement online at the following URL: <https://www.civica.com/en-gb/resources/corporate-downloads/> and will notify members about this in their annual benefit statements.

## YEAR ENDED 5 APRIL 2021

### CHAIRMAN'S STATEMENT REGARDING DC GOVERNANCE (CONTINUED)

#### Processing Scheme transactions

The requirements of regulation 24 of the Regulations have been met and core financial transactions have been processed accurately during the period by:

- Appointing a reputable professional pension administration provider, Mercer Limited (the "administrator").
- Having in place service level agreements (SLAs) with the administrator which cover all core administration processes. These SLAs are monitored on a quarterly basis.
- Appointing a professional firm to undertake an annual audit. All financial transactions are subject to annual audit requirements as part of the Trustee's annual report and accounts.

The Trustee has a specific duty to ensure that core financial transactions relating to the DC section are processed promptly and accurately. As no further contributions are made to the Scheme, these include the transfer of member assets out of the Scheme, switches between different investments within the Scheme and payments to and in respect of members. The Trustee recognises that delay and errors can cause significant losses for members. Delay and errors can also cause members to lose faith in the Scheme, which may in turn reduce their propensity to save and impair future retirement outcomes.

These transactions are undertaken on the Trustee's behalf by the Scheme administrator, and its investment manager Legal & General Investment Management. The Trustee periodically reviews the processes and controls implemented by those organisations, and consider them to be suitably designed to achieve these objectives.

The Trustee has a service level agreement ("SLA") in place with the Scheme administrator which covers the accuracy and timeliness of all core transactions and receives regular reports to monitor the performance against those service levels. The processes adopted by the Scheme administrator to help meet the SLA include

- a central financial control team separate to the administration team, who monitor the Trustee's bank account, and;
- the daily monitoring of bank accounts and multiple individuals checking investment and banking transactions.

The SLAs that the administrator works to are shown below:

Work Type	Service Standard (working days)
Death Benefit Quotation	1 day
Benefit Quotation	10 days
Benefit Payments	5 days
General Member Correspondence	10 days

During the period covered by this statement, 61% of work was completed within the agreed service levels. The Trustee notes that service levels are far below what should be expected and are working closely the administrators to see a return to acceptable levels.

## YEAR ENDED 5 APRIL 2021

### CHAIRMAN'S STATEMENT REGARDING DC GOVERNANCE (CONTINUED)

In April 2021 it was identified that there was a potential issue that affected the annual lifestyle process that was carried out in April 2019. To be certain that all member records are correct Mercer are re-constructing the lifestyles for 2019, 2020 and 2021, this review will be completed shortly with any corrective action following to ensure no loss to members. As a result of this issue a number of member quotations and payments were delayed to ensure members received the correct entitlement. Any member in this situation has now received their quotation or benefit payment. The Trustee believes this to be an isolated system error in 2019 and does not represent a systemic issue.

As a wider review of the Administrator in general, the Administrator employs an independent auditor to prepare an annual report on their internal controls (AAF01/06/ ISAE 3402) which is provided to the Trustee annually.

The Trustee has appointed an independent auditor to carry out an annual audit of the Scheme, including the material financial transactions that have taken place during the Scheme year.

The Trustee will also perform periodic assessments of the methods of the Scheme's administrators and will challenge them in terms of their efficiency when necessary.

In light of the above, over the Scheme year, the Trustee considers that the requirements for processing core financial transactions specified in the Administration Regulations (The Occupational Pension Schemes (Scheme Administration) Regulations 1996) have been met. However, as mentioned above the Trustee acknowledges that the member experience has been poor over the period, demonstrated by the relatively low percentage of cases completed within SLA. The Trustee recognises the challenge posed by the COVID pandemic which impacted the administration team over the year and is working closely with the administrator to improve the situation.

#### **Charges and transaction costs – default arrangement and additional funds**

The law requires the Trustee to disclose the charges and transactions costs borne by DC scheme members and to assess the extent to which those charges and costs represent good value for money for members. These transaction costs are not limited to the ongoing charges on member funds, but should also include trading costs incurred within such funds. The Trustee has taken account of statutory guidance when preparing this section of the report.

In this context, "charges" means (subject to some specific exemptions, such as charges relating to pension sharing orders) all administration charges other than transaction costs. "Transaction costs" are costs incurred as a result of the buying, selling, lending or borrowing of investments.

Transaction costs have been provided by the Scheme's investment manager and they are calculated using slippage cost methodology. That is, the transaction costs represent the difference between the expected trading price of a security within a fund and the price at which the trade is actually executed at (as typically a trade is executed a few working days after an order is placed). Therefore, in a buy order, for example, if the execution price is less than the expected price, a transaction cost may be negative. A negative figure is effectively a gain from trading activity, whilst a positive figure is effectively a cost from trading activity

Details of the Total Expense Ratios ("TERs") payable for each fund as well as the transaction costs within the default arrangement are as follows:

<b>Fund</b>	<b>TER (%)</b>	<b>Transaction Cost (%)</b>
L&G Global Equity 70:30 Index Fund	0.197%	-0.002%
L&G AAA-AA-A Corporate Bond Over 15 Year – Index Fund	0.151%	0.013%
L&G Cash Fund	0.125%	-0.002%

Source: L&G. Transaction Costs shown are for the 1-year period to 31 March 2021.

This is lower than the maximum TER allowed of 0.75% for default arrangements.

# RADIUS GROUP PENSION SCHEME

## YEAR ENDED 5 APRIL 2021

### CHAIRMAN'S STATEMENT REGARDING DC GOVERNANCE (CONTINUED)

The Trustee has also made available the above range of funds as self-select options, which members can choose as an alternative to the default arrangement. These funds allow members to take a more tailored approach to managing their own pension investments.

#### AVCs

Only one member has AVCs with Aviva, who has assets valued at approximately £8,500 which are invested in the Aviva Mixed Invest (40-85% Shares) fund. In light of this the Trustee believes that it is cost prohibitive to conduct a full AVC review. AVC investments held with L&G are reviewed at the same times as the review of the main Scheme benefits.

The AVC facility is provided via Aviva; the available funds together with associated fees are shown below.

Fund	TER (% p.a.)	Transaction Cost (% p.a.)
Aviva Global Bond (NU) Standard Series 01 Pension	0.88	0.2280%
Aviva Pacific Equity (NU) Standard Series 01 Pension	0.88	0.0672%
Aviva Gilt (NU) Standard Series 01 Pension	0.88	0.0943%
Aviva UK Equity (NU) Standard Series 01 Pension	0.88	0.0868%
Aviva European Equity (NU) Standard Series 01 Pension	0.88	0.3539%
Aviva Mixed Invest (40-85% Shares) (NU) Standard Series 01 Pension	0.88	0.0866%
Aviva Global Equity (NU) Standard Series 01 Pension	0.88	0.0988%
Aviva US Equity (NU) Standard Series 01 Pension	0.88	0.0295%
Aviva Deposit (NU) Standard Series 01 Pension	0.88	0.0004%
Aviva Property (NU) Standard Series 01 Pension	0.88	0.0903%
Aviva With-Profit (NU) Standard Series 01 Pension	0.88	0.0750%
Aviva With-Profit Guaranteed (NU) Standard Series 01 Pension	0.88	0.0750%

Source: Aviva. Transaction Costs shown are for the 1-year period to 31 March 2021.

#### Cumulative effect of cost & charges

Using the charges and transaction cost data provided by the relevant parties and in accordance with regulation 23(1)(ca) of the Administration Regulations, as inserted by the 2018 Regulations, the Trustee has prepared an illustration detailing the impact of the costs and charges typically paid by a member of the Scheme on their retirement savings pot. The statutory guidance has been considered when providing these examples and the DB AVC investment options have also been considered.

In order to represent the range of funds available to members we are required to show the effect on a member's savings of investment in a selection of significant funds within the Scheme. The funds we are required to illustrate to represent the fund range (with the specific fund within the Scheme in brackets) are:

- The fund or strategy with the most members invested (the *Default Strategy of the DC Section*)
- The most expensive fund (*Aviva Global Bond (NU) Standard Series 01 Pension*)
- The least expensive fund (*L&G Cash Fund*)
- The fund with the highest expected return (*L&G Global Equity 70:30 Index*)
- The fund with the lowest expected return (*L&G Cash Fund*)

### CHAIRMAN'S STATEMENT REGARDING DC GOVERNANCE (CONTINUED)

#### **Value for members**

In accordance with regulation 25(1)(b), the Trustee undertakes a review of the charges and transaction costs incurred by members in order to ascertain whether or not the Scheme represents good value for members, relative to peers and alternative arrangements that are available.

There is no legal definition of "good value", so the process of determining good value is a subjective one. "Value" is not a straightforward concept to quantify and can be open to broad interpretation.

The Trustee, with support from their advisers, Mercer, have undertaken a value for members' assessment. This review did not cover AVCs with Aviva. The review concluded that the Scheme overall represents good value for members in comparison to the costs payable by members. The reasons underpinning this conclusion include:

- The Scheme's current default investment arrangement complies comfortably with the charge cap of 0.75% per annum.
- Annual management charges were benchmarked against a manager database of comparable funds and found, overall, the fees paid by members offer good value for the charges that members pay.
- The funds used by the Scheme are highly rated by our investment advisers as having good prospects of achieving their risk and return objectives.
- The performance of the funds in use has also been reviewed, and over a three-year period to 31 March 2021, all three funds performed as expected relative to their benchmarks.
- The Company pays for an Independent Trustee to govern the Scheme's arrangements and provide oversight on behalf the members' best interests, and also pays for Trustee advisory services.
- The Company pays for the Scheme's administrative costs, further enhancing the value that members receive.
- The Company also pays for supplementary communications to be issued on behalf of the Trustee, including an annual newsletter and benefit statement.
- The Trustee reviews the Scheme against the DC Code on a regular basis.

Administration services were identified to be poor. The Trustee recognises that the Covid-19 pandemic has had an impact on performance during the year, however SLA performance is below expected levels. The Trustee is actively taking steps to review the administration performance with Mercer.

#### **Trustees' knowledge and understanding**

Sections 247 and 248 of the Pensions Act 2004 set out the requirement for trustees to have appropriate knowledge and understanding of the law relating to pensions and trusts, the funding of occupational pension schemes, investment of Scheme assets and other matters to enable them to exercise their functions as trustees properly. This requirement is underpinned by guidance in the Pension Regulator's Codes of Practice 07 and 13.

The Trustee has put in place arrangements for ensuring that they take personal responsibility for keeping up-to-date with relevant developments. The Trustee arrangements changed over the year with the previous Trustee stepping down and a sole professional trustee appointed with effect from 1 April 2021. The new Trustee is BESTrustees Limited.

The retiring Trustee Directors had previously carried out a self-assessment of training needs to help identify any knowledge gaps and the Chair of Trustees reviewed the responses to help identify training needs.

# RADIUS GROUP PENSION SCHEME

## YEAR ENDED 5 APRIL 2021

---

### CHAIRMAN'S STATEMENT REGARDING DC GOVERNANCE (CONTINUED)

Over the last year, the retiring Trustee Directors received training on Internal Disputes Resolution Procedures (8 April 2020), the impact of Covid-19 (8 April 2020), DC Pension Arrangement Alternatives and DC Governance Requirements (30 July 2020), CMA Objectives for Investment Consultants and Statement of Investment Principles Updates (29 October 2020). In addition, the Trustee Directors receive advice from professional advisors, and the relevant skills and experience of those advisors is a key criterion when evaluating advisor performance or selecting new advisors. The Trustee Directors also include legislative updates and Trustee Knowledge and Understanding on the agenda for each of their meetings.

All of the retiring Trustee Directors had completed the Pension Regulator's Trustee Toolkit. All Trustees are required to familiarise themselves with the Scheme's trust deed, rules and Statement of Investment Principles (SIP). Throughout the scheme year the Trustee Directors have demonstrated a working knowledge of the trust deed and rules and they seek legal advice from the Scheme's legal advisor CMS where any ambiguities over the interpretation the Rules arise.

On 8 April 2020, the Trustee Directors received training on the new requirements for the SIP and how these should be reflected in the document. This was useful for when the Trustee Directors had to revise the SIP in July 2020 to account for the October 2020 regulation changes. During this process, the Trustee Directors demonstrated that they are conversant with the SIP. With regards to demonstrating sufficient knowledge and understanding of the law relating to pensions and trusts, the Trustee Directors receive current pension issues documents at every meeting where legal issues are discussed. On 30 July 2020, the Trustees received training on alternative arrangements to the DC Scheme, to assist in conversations around the future of the DC Scheme.

The DC assets and performance are reviewed at each meeting where the investment advisers help support discussions and decision making. Taking account of actions taken individually and as a Trustee body, and the professional advice available, the Trustee Directors considered themselves properly enabled to exercise their function as Trustee Directors of the Scheme. The combined knowledge has helped over the year with exercising discretions and answering member disputes.

As mentioned above, on 1 April 2021, the Scheme moved to a sole trustee structure. The professional sole Trustee is subject to its own audit requirements with minimum standards of training during the year which cover areas such as investment, legal cases and changes to the statutory framework. All of BESTrustees representatives are accredited by the aPPT (Association of Professional Pension Trustees) and meet the annual CPD requirements. Given the individuals representing the professional Trustee sit on a number of Trustee boards, there is the benefit of not only experience gained from those other appointments but also the training that takes place at those Trustee meetings. Prior to taking on appointment, the professional Trustee's processes require a consideration of whether the appropriate skills and experience for a particular scheme are held by the individuals concerned.

Given the extent of the training and ongoing agenda items stated above, the Trustee is comfortable that they and the previous Trustee Directors have demonstrated sufficient knowledge of the law relating to pension schemes and trusts and the principles relating to the funding and investment of pension schemes. I am also satisfied that the Trustees have demonstrated a working knowledge of the Scheme's trust deed and rules, Statement of Investment Principles and all other documents setting out the Trustee's current policies.

The Chair's statement regarding DC governance was approved by the Trustee and signed by:

*Ann Rigby*

On behalf of BESTrustees Limited

Date: 3 November 2021
