Satisfaction rate for
the past four years

Who we are. What we do.

Over 30 years, we've built a business with a unique focus. Software and services that help sustain and enhance public services around the world. Backed by the direct experience of many of our people working in the public sector, Civica is focused on improved outcomes and building a business that will continue to deliver for communities globally.

Technology services

Licensing	Software lifecycle management	Communication and collaboration	Cloud management	IT strategy and managed services
Helping you to negotiate the most cost-effective licensing agreement and support so you only pay for what you need	Optimise your existing IT estate, reduce risk and get more control of your software usage	Providing the tools to support the modern workplace, agile working and better communication with staff and customers	Helping you to understand the benefits of cloud adoption and supporting you to set up, migrate and manage cloud based technology	Helping you to make the most of your investment in IT with ongoing recommendations and support.

Supporting organisations across the public sector

CIVICA
