Manufacturing Collections

Advances in complex technologies, skills shortage and fade, changing 'design for' criteria and new customer landscapes are the factors we face in the next industrial era.

We're committed to supporting engineering and manufacturing organisations as they look for continuous improvement in the face of shifting global demands. Manufacturing is an ever-changing industry and meeting production goals is one of the main priorities.

Staff entering today's manufacturing workforce must process and balance huge amounts of complex information to make better and quicker decisions than ever before.

CPD accreditation and certification for every lesson allows your organisation to make sure that all learning is compliant and reliable. The content is continuously refreshed to ensure learners are always up-to-date.

The collection is easily added to your Agylia Learning Management System (LMS) and is fully responsive, providing a great user experience across desktop, tablet and mobile devices. Whether learners are in the office, at home, travelling or working away, they'll have access to their eLearning.

Manufacturing

Due to the specialised skills and expertise required, this collection takes into account the working environments of all learners – from the shop floor to the boardroom – and the access they have to IT infrastructure.

Lessons include:

- Good Manufacturing Practice (GMP) – Module 1
- Good Manufacturing Practice (GMP) – Module 2
- Good Manufacturing Practice (GMP) – Module 3
- Good Manufacturing Practice (GMP) – Module 4
- Introduction to Lean
- Practical examples of Lean
- The application of Lean.

Custom eLearning courses

Are you looking for eLearning courses with designs and outcomes to meet your exact needs? We have a team of highly skilled and experienced instructional designers who will create custom content to help you achieve your aims.
