Social Care and Health Collections

The social care and health sectors continue to balance the need for training a highly-skilled workforce with the pressures of delivering exceptional frontline care to a changing population.

Our Social Care and Health Collection is underpinned by current legislation, national standards, latest research findings and best practice. The collection is mapped to the Skills for Care Endorsement Framework and delivers immediate value through full compliance with Care Quality Commission requirements.

CPD accreditation and certification for every lesson allows your organisation to make sure that all learning is compliant and reliable. The content is continuously refreshed to ensure learners are always up-to-date.

Collections are easily added to your Agylia Learning Management System (LMS) and are fully responsive, providing a great user experience across desktop, tablet and mobile devices. Whether learners are in the office, at home, travelling or working away, they'll have access to their eLearning.
