## [ **Agylia** Learning Content and Services

## The power of digital learning – it's in your hands

How can we help you?

Well, our team is brimming with bright ideas. We use creative designs and innovations to produce appealing and effective learning solutions. They'll increase engagement with your people, improving their knowledge and performance.

Our designers, media producers and learning consultants are a friendly and knowledgeable bunch. They'll listen to what you need and work with you to achieve the best results. By sharing their expertise on teaching methods, design, messaging and user experience, they can transform your learning and development programmes.

You already know what's best for your people. We'll help you do it your way.

### **Our learning content and services include:**

- Bespoke eLearning and microlearning content
- Media production
- eLearning libraries
- Learning consultancy.

## The eLearning and microlearning you need

We use the latest technologies to create customised eLearning and microlearning content that promotes meaningful and measurable experiences.

### **Agylia delivers on a range of learning initiatives, including:**

- Induction and onboarding
- Risk and compliance
- Leadership development
- Sales training.

We'll use the technologies that fit your organisation and its learning needs. And we'll be with you every step of the way.

### **No barriers to learning**

We create content that works across all platforms and devices, to ensure there are no barriers to learning. We design content that's available when and how your learners want it.

### **Knowledge checks**

We can create stand-alone or integrated assessments, quizzes and surveys to assess learner knowledge.

### **Gamification**

Games and gamification are great ways to engage and motivate learners. They'll accept your key messages and want to discover more about learning resources. We combine learning with game elements to make the experience enjoyable, challenging and memorable.

### **Translation and localisation**

We deliver translation and localisation of eLearning and microlearning content to give each individual a positive learning experience.

# Media

Media is at the core of digital learning. From photography, to animations and interactive videos, we bring learning messages to life to engage and inspire. Media is perfect for sharing expertise and creating authentic experiences.

We use our in-house media experts to capture, narrate and produce a wide range of media as stand-alone content, or to enhance blended learning programmes.

## Video

Video is a powerful tool for explaining complex topics. We'll create authentic video scenarios to communicate your learning messages. We can also add interactivity, allowing people to explore and learn at their own pace.

## Animation and simulation

An exciting way to simplify and energise any subject. Our team takes complex topics and turns them into clear, concise and impactful learning messages. We bring content to life through animations and simulations.

## Third-party media

We can incorporate existing or third-party media into your eLearning and microlearning content.

# eLearning libraries

Our eLearning libraries cover the essential skills and industry-specific knowledge learners need to become effective quickly.

The libraries have been created with the help of approved and accredited subject matter experts. They are regularly revised, ensuring learners are kept up to date.

## Our libraries include:

- Business Skills
- Fair, Safe and Legal
- Personal Skills
- Leadership and Management
  - Health and Wellbeing
  - Financial Services
- Social Care and Health
  - Government
  - Housing
- Hospitality and Retail
  - Contact Centre
  - Manufacturing

## Consultancy

We listen so we can help you achieve the best outcome. We'll take a strategic look at an organisation's learning needs to identify knowledge and skills gaps. Then we'll recommend solutions centred round your unique requirements.

### **Learning strategy**

We're experienced at conducting training needs analysis and learner workshops to understand an organisation's culture. We'll get to know the people who will be experiencing the learning and the challenges they face. Then we'll help you to define your vision and learning strategy.

### **Learning enablers**

With a focus on learning experiences, we provide advice on learning enablers – including the use of gamification, video, animation and knowledge checks – to maximise the engagement and effectiveness of content and programmes.

### **Learning delivery**

We provide advice across a range of standalone or blended learning approaches – from classroom to mobile – and identify the technologies needed to support learning delivery.

# Do you need a platform to deliver your content?

## **Agylia Learning Management System (LMS)**

The Agylia LMS is an agile, mobile and social learning platform that enables organisations to schedule, target and deliver a wide range of learning content. This includes eLearning and microlearning courses, videos, podcasts, PDFs and weblinks.

The intuitive learner portal and apps give individuals easy access to their learning content.

## **Agylia mobile learning apps**

Agylia apps, for iOS and Android devices, enable learners to access content, even when they're offline. They can be in the office, working away, at home or travelling.
