

Civica ANPR

Your trusted partner for ANPR, delivering the best solutions to meet your needs

Civica is the leading ANPR and PNC solution provider in the UK. We supply hardware, software, support and maintenance for all aspects of ANPR to help you create the required infrastructure.

We build strong relationships with customers and UK supply chain to deliver the best solutions to meet your unique requirements.

Nationwide support

Our nationwide team of highly skilled, experienced ANPR engineers provides 24/7 support and maintenance, helping to ensure maximum system performance and mitigate the risk of data loss.

Fixed Site ANPR

Monitor and capture ANPR data consistently from a fixed location.

- Multi-lane ANPR cameras (ANPR and colour overview cameras in a single housing)
- Compliant with NASPLE (National ANPR Standard for Policing and Law Enforcement) and UTM (Urban Traffic Management Control)
- Integrated communications systems
- Performance testing software.

Intercept Mobile ANPR

Capture and analyse ANPR data and live video feeds at any location. Intercept Mobile includes:

- Video capability with secure cloud storage
- Integration with the vehicle's factory screen to reduce installation costs
- Up to 4 IR ANPR cameras
- Small form factor PC.

Re-deployable ANPR

Connect to your control room using integrated 3G/4G and cover multiple lanes at the same time. The cameras can be battery operated to provide flexibility in remote or rural areas:

- Pan-tilt-zoom control for CCTV operations
- Colour cameras and night-vision technology
- Fast, reliable IP video streaming.
