

Civica Mark Manager

Intuitive, secure, and reliable on-screen marking of candidate responses.

We've been helping awarding bodies, certifying authorities, testing organisations and other educational institutions to manage their assessment marking for 10 years.

We've found solutions to problems that existed with other marking tools to the benefit of our customers. Civica Mark Manager is backed by our diverse service offerings, providing a complete solution for all your assessment needs.

Civica Mark Manager helps you to drive efficiencies in your marking operation by providing an online marking platform that is reliable, highly secure and can be easily integrated into your existing IT infrastructure.

We help our customers maintain quality assurance measures, set and uphold the standard of their mark schemes, ensuring learners get the outcomes they deserve.

Supporting markers

- Easy navigation using page click, thumbnails, cropped pages, and ability to view the rest of the page and whole script.
- Remote or centralised scanning onto a browser

- Customised pages tailored to your preference, configurable toolbars, colour annotations, criteria based marking and ticks.

Why choose Civica Mark Manager

- Apply Quality Assurance measures with practice and qualification, calibration, live seeding, double marking, and back reading
- Tolerances and randomisation are configurable at qualification, paper, segment, question and marker role levels
- Escalate scripts including adding notes, return to the markers, alerts and messaging
- The only UK assessments partner with true 24/7 support
- Range of responses supported including extended, short, multiple choice plus audio, video and file types including .mp3, .avi, Word and Excel for evidence based assessments
- Wide range of features including item or segment level marking and reporting.

15m

tests marked year on year

5m

test verifications each year
