

Civica Roster

Maximise your workforce and deliver effective services

Civica Roster can adapt to different environments and workloads, allowing you to streamline your workforce planning, no matter what your industry.

It helps organisations roster contracted and flexible staff efficiently, predict and manage demand and monitor time and attendance.

Why choose Civica Roster?

Using our cloud software, you can easily roster and share working schedules in one place giving flexibility across multiple companies, sites, departments and teams.

Automates rostering

Complete visibility of your staff's availability, provides an holistic view to easily manage any gaps.

Recurring shift patterns and activities are automatically pre-loaded to minimise repetition and cut down on administrative burden.

All compliant shifts are automatically processed so the team manager only sees the records where there's a problem.

Simplifies handovers

Demand schedules can be built, based on each service that every client needs, to manage their individual acuity.

Shift handover is seamless with staff easily being able to view what's happened since they were last on shift.

Facilitates self-service

Staff can self-serve from their mobile phones on-the-go. From booking extra shifts, arranging holidays to clocking into shifts, they can manage their time effectively.

Installing our touch-screen time and attendance systems, for secure clocking-in and out, allows working hours to be tracked, pay managed and staff levels optimised.

Unifies data

Our data analytics and intelligence tools, including Power BI, can aid better workforce decision-making and more transparent sharing with stakeholders.

1 Gives an holistic view of staff availability

2 Automated rostering cuts down on administrative time

3 Keep your workforce happy by enabling staff to manage their own time

Trusted cloud partner to

“Beyond technology, cloud is a culture change. For many organisations, this is an opportunity for reworking processes and reframing approaches to work. It’s a unique chance to create a culture shift.”

Harold de Neef,
Group Director – Cloud, Civica

Migrating to Civica cloud software means

Stronger resilience and availability

We proactively maintain and manage Civica Roster in our own environment ensuring guaranteed availability even for home workers. This ensures stronger business continuity and disaster recovery.

Advanced security

With cyber-attacks on the rise every day, we continuously update and patch our software in the background to maintain high levels of security standards.

Better insights

We help you take advantage of BI tools and provide improved reporting and insights by combining data across solutions. This gives managers the information they need to make informed decisions.

Higher productivity

We regularly enhance our software to provide new releases, streamlining support processes. Empowering IT teams to be more productive and free up time to focus on supporting clinicians.

Faster innovation

The cloud provides a quicker way to help you access new innovation faster, leveraging the power of Microsoft Azure.

Key benefits

- Improved security
- Reduced infrastructure investment
- Increased convenience
- Greener delivery
- Improved data analytics
- Opportunity to reengineer processes
- 24/7 availability
- Greater resilience
- Assured agility – access from anywhere on any device
- Rapid scalability to support mergers and acquisitions.
