With growing demand for flexibility and efficiency, many organisations are turning to digital meeting and voting solutions. These modern approaches help reduce costs, limit travel and paper use, and ensure that every attendee has a fair opportunity to engage.

## What is CESjoinIN?

**CESjoinIN is a purpose-built platform that helps organisations to run events with confidence.** Using modern, secure, cloud-based software, it allows participants to watch the event, vote online, view key documents, submit questions, and follow events, in-person or virtually.

Many organisations in the UK are under growing pressure to make their governance meetings secure, inclusive, and easy to access, whether attendees are attending in person or remotely. From AGMs and board elections to key stakeholder, participation must be simple, regardless of where participants are located. Traditional methods, such as in-person meetings and paper-based voting, often demand significant time, cost, and coordination.

We've combined over 140 years of election experience with more than two decades of technical innovation to deliver a platform that's simple to use, flexible for your needs, and designed with fairness and integrity at its heart.

## How can CESjoinIN help?

Being a fully integrated platform, CESjoinIN connects in-person or virtual audiences with **video, voting, and Q&A functionality through web browsers on any device. With key documents ready to view all in one place.**

CESjoinIN boosts engagement, improves accessibility, and supports good governance while reducing costs and environmental impact. With a fully digital audit trail and real-time results, it delivers the trust, transparency, and peace of mind your audience expect.

# Five reasons why you're in good hands

## Secure and reliable

- Simple, secure accessibility that only lets authorised attendees cast their vote
- Mitigates the risks of miscounts or lost votes
- Adds a further layer of protection to personal data.

## Professionally delivered

- Offers in system and in person support and project management services
- Ensures that each event is executed effortlessly, professionally and delivers the desired impact.

## Inclusive and accessible

- Gives virtual attendees the same level of rights as their counterparts attending in person
- Provides an engagement hub for stakeholders to cast votes and raise questions without the need to travel
- Ensures that opinions of in-person and remote attendees are equally heard, giving equal opportunity to everyone.

## Drives better outcomes

- Empowers organisations with informed decision-making and strategic agility, enabling faster, data-driven choices for long-term success
- Fosters improved collaboration and productivity by promoting seamless cross-functional teamwork
- Improves event satisfaction and strengthens brand reputation and community engagement.

## Transparent and auditable

- Provides a digital audit trail to ensure the events follow fair and honest voting practices
- Ensures stakeholders have a 360 view of information affecting their voting decisions with the ability to participate virtually.

## CESjoinIN modules

**CESjoinIN is built around four essential modules**, each designed to support a smooth, inclusive and transparent virtual or hybrid event experience.

**Broadcast:** Stream your event live so attendee can attend remotely from any device

**Documents:** Share key materials like agendas and reports before and during the meeting

**Q&A:** Enable attendees to ask questions and engage with organisers in real time

**Vote interaction:** Run secure, real-time voting with instant results and full audit trails.

# Hybrid and virtual AGM solution

CESjoinIN gives everything an organisation needs to manage any event with ease. Whether it is running a simple vote or a large, hybrid AGM, CESjoinIN makes it smooth. Our modular platform provides customisable features suitable for each event type.

## Attendee access

Control attendee access as voting, non-voting, or guest

## Request to speak

Request to speak allows remote attendees to be seen and heard

## Voting combination

Combines secure proxy or pre-meeting voting with live meeting votes

## Responsive, accessible design

Built to WCAG standards supporting assistive technologies across all devices

## Remote attendance

Remote attendance with live video broadcast

## Instant reporting

Instant reporting of accurate results including proxy votes

## In room registration

In room registration and voting via own device, or traditional methods

## Seamless administration

Seamless meeting and voting administration.

## Question and answer

Question and answer functionality (with moderation capability)

# How CESjoinIN is different?

## Built on real expertise

The platform is built and supported by a highly skilled in-house team with decades of technical and electoral experience. From setup to delivery, every step is guided by professionals with deep domain knowledge.

## Inclusive participation

Designed to support both in-person and virtual attendance, the platform helps maximise engagement and extend reach across all stakeholder groups.

## All-in-one functionality

By having a single source of truth, CESjoinIN brings together documents, voting, Q&A, and reporting in one secure place. A full digital audit trail ensures results are fast, accurate, and easy to verify.

## Dedicated support team

Expert support is available via telephone, on-site, or through managed services to ensure every event runs professionally and achieves the desired outcome, without complications.

## Trusted and transparent

With no manual vote setup or counting, results are securely and automatically generated, building confidence in the process and fostering trust between organisations and attendees.

## Why choose Civica?

Civica is a global leader in public sector software. We make software that helps deliver critical services for citizens all around the world. **Over 5,000 international public bodies use our software to support over 100 million people.** From local authorities to central government, to education, to health and care, we are a global GovTech champion, helping to serve citizens.

Civica Election Services supports thousands of organisations across sectors with secure, trusted voting. We work with over 75% of UK local authorities and serve membership bodies, corporates, building societies, the NHS, and trade unions.

# CIVICA

## Smarter meetings. Stronger connections.

---

Secure. Inclusive. Trusted.

**CESjoinIN** is the smarter way to run AGMs, ballots and governance events that truly engage audiences, wherever they are.

By replacing paper-heavy, manual processes with a flexible digital platform, **CESjoinIN helps organisations save time, cut costs, and reduce environmental impact.** It ensures that every attendee has a voice and that every vote is counted quickly, securely and transparently.

Whether managing a single virtual meeting or rolling out a long-term digital engagement strategy, **CESjoinIN gives organisations the tools and support needed to deliver trusted outcomes with confidence.**
