

CESnominate

Enabling branches and candidates to complete their nomination online through our fast, user-friendly and fully accessible platform

Digitise and simplify the nominations process for you, your branches and your candidates

CESnominate is an informative, user-friendly and fully accessible platform to enable branches and prospective candidates to complete their nomination online.

CESnominate is flexible and can be configured to ensure all the information required to submit a nomination is provided.

The platform sends an immediate acknowledgement of receipt, giving the assurance that the nomination has been received.

The supporting nominations dashboard gives you real-time information on the number of nominations submitted, enables you to verify and validate them, and produces management reports configured to your user requirements.

Branches and members can complete nominations quickly and easily online

Reduce incorrect submissions with error flagging and easy edit

Keep track of numbers, status and management reporting throughout

Key benefits – for branches / candidates:

- Nominations can be completed quickly and easily online. The platform is intuitive and each section includes a Help function to explain what information to include.
- Branches and candidates can start their nomination and Save For Later, enabling them to complete their form in multiple online sessions.
- The format and information collected can be amended to meet your requirements - eg. date of meeting, quorum.
- Configure the site to allow each branch and candidate to provide the required nomination submission details you need.
- Reduce the amount of incorrectly completed forms. Incomplete sections will be flagged before the branch or candidate can submit their nomination.
- Send reminders to complete forms in the Save For Later category.
- Give branches and candidates confidence with an email confirmation that their submission has been received.

Key benefits – for the union:

- Share instructions and links to the platform with all branches and members by email or in a covering letter introducing the election.
- Configure the website to your branding requirements with your collateral and only the sections you need
- Share all relevant resources easily using the document library, including election timetables, rules and regulations
- Keep track of the number of nominations received for each seat using the CESelection Management Information portal (included as a standard part of our election services)
- Check nominations at a glance with the Nominee Status function
- Correct submissions easily with the Edit function
- Communicate directly with nominees and branches with the Contact function
- Stay in control with a full audit trail and multiple reports for admin and leadership teams
