

Civica Driver Management

Providing essential checks for drivers and fleet

Civica Driver Management links directly with the DVLA for driver and fleet checks to help organisations meet duty of care.

Designed to streamline the driver and fleet management process, Civica Driver Management provides integrated risk management, document storage and automated driving licence, vehicle tax and MOT checks.

Automated licence checking

Automated driver licence checking confirms licence validity, type and qualifications.

Alerts can be scheduled when actions or documents are required.

Driver risk assessments

Civica Driver Management helps categorise risks, allowing you to provide more frequent checks for higher risk drivers – such as your young or inexperienced drivers.

DVLA link

Civica Driver Management enables vehicle, tax and MOT details to be retrieved directly from the DVLA.

Checks upon expiration can be scheduled, so you remain informed when documents are due for renewal.

Enforce company policies

Request and maintain documentation from your drivers that are relevant to your company policies, such as training approvals.

Fast and accurate expenses

As part of Civica Expenses, Civica Driver Management links mileage claims seamlessly with expenses to save employees time, while also improving accuracy of travel costs.

Benefits

- 1 Ensure safety with essential checks
- 2 Reduces risk with driver assessments
- 3 Provides organisation-wide insights

Civica Driver Management provides essential driver and fleet checks to help organisations meet their duty of care.
