- Reduce the reporting workload cut production time for MoJ annual returns from weeks to minutes
- Improve time management for coroners and courts with a shared calendar
- Manage expenses and finances on case-by-case basis

referrals of new cases only the data you need to progress a case and to

Why Civica Coroners?

The application is used by more than 30 coroners' jurisdictions. Our roadmap provides for ongoing application development and enhancement, which will include Medical Examiner processes.

Civica's Coroners User Group, which meets regularly, provides input to help steer application development to best meet coroners' evolving needs.
