

Modern.Gov

Delivering stronger governance, supporting the paperless agenda. Modern.Gov delivers cost-effective, efficient and transparent decision management across your organisation.

Our governance & meeting management solution delivers improved outcomes for all your stakeholders; meeting organisers, committee members and citizens.

It supports improved and efficient governance for all organisations which need to track and report decisions, coordinate meetings and ensure transparency, and has driven paperless working and improved public engagement and consultation since 2000.

Modern.Gov is designed to support meeting organisers, by streamlining administration processes to compile meeting packs in minutes rather than hours, reducing paper usage and printing costs. Last minute changes to agendas can be quickly published, without needing to reprint documentation, which delivers significant time and cost savings.

Why choose Modern.Gov?

- Co-ordinate and manage meetings
- Comply with rules of governance
- Track decisions and actions
- Record gifts and hospitality
- Ensure transparency

Secure paperless meeting app

The Modern.Gov paperless meeting app provides up-to-date information at your fingertips and paperless working for meeting organisers and attendees. Committee members benefit from 24/7 secure access to view, annotate and vote on the latest items with automatic download of agendas, reports, decisions and meeting minutes. Information is available offline, giving you access to everything you need, when you need it.

The complete governance and meeting solution

Modern.Gov software is used by more than 350 customers comprising local authorities, town and parish councils, clinical commissioning groups, housing associations, fire and rescue services and higher education institutions.

Key customers include the Greater London Authority, the National Assembly for Wales, Harpenden Town Council and Dawlish Town Council. More recently, the business has continued to win major new contracts including Dartmouth Town Council, Monmouth Town Council, North Northamptonshire Council, and West Northamptonshire Council.

85%

of principal authorities use Modern.Gov

70%

time savings on agenda production

20k

app downloads for iPad

"Having previously used Modern.Gov at the District Council, I was aware of the benefits the system could bring. Agendas are now page numbered, itemised, emailed to Members, and published on the Council's website, all with the click of a button.

The Modern.Gov app on iPads, tablets and desktops allows Members to securely access meeting documentation, make notes, and highlight reports as if on paper, all the while ensuring confidential reports remain for their eyes only.

Its easy to see how much time, duplication, and additional benefits the council can reap once implemented."

Andrew McKenzie
Town Clerk, Dawlish Town Council

Meeting management

Take the stress out of co-ordinating meetings and collating papers with all the documents you need in one place. From agendas and minutes to Register of Interests. Control access to restricted items and track issues by automatically linking to agenda items.

Paperless meeting app

Committee members can securely view and annotate documents, with automatic document download to ensure members see the latest information, anytime and anywhere. For meeting organisers, last minute changes to agendas can be quickly updated on the app. All you need to do is publish and share the papers online when you're ready. The app is available for Apple, Android or Windows.

Workflow

Streamline your administrative duties, eliminate delays and avoid duplicating effort. Workflow helps you manage the steps you take towards making decisions and publishing reports, while ensuring transparency and accountability.

Member profiles

Record a wide range of information including contact details, biographies, committees, election results, decisions/ votes, declarations of gifts or hospitality, and attendance at meetings.

Election results

Election results can be updated in Modern.Gov and displayed on your website.

Public consultation

Tools to engage and consult with your audience quickly and easily, using online questionnaires, e-petitions and subscriptions.

Separate internal and public-facing websites are deployed as standard, including seamless integration with your existing website.
