

Hire

Increase the productivity of your fleet and reduce the volume of idle vehicles

The internal and external hire of your assets can increase the cost-effectiveness of your fleet. Efficient management of hire contracts and managing their charges and availability is fundamental to cost-control.

Hire contract pricing can be complex to calculate and their administration can be onerous.

We can help you

Better control your short and long term hire contracts with TranSend.

Allocate and recharge the use vehicles to either internal departments or external customers.

View accurate and UpToDate vehicle availability information for better allocation. Manage short & long term hire contracts to both internal departments and to external customers.

Intelligent software that is capable of managing varied charging patterns and can automate or streamline the Hire process giving you the benefits of reduced administration and increased profitability.

Key features .

Manage the lifecycle of all hire contracts to:

- Cross charge Internal departments or external customers for use of your owned assets
- Calculate the appropriate hirer rates for each asset.
- Accommodate complex charging structures such as Fixed rate (e.g. a set price per asset), banded rates (e.g. price dependant on duration of contract) or variable rates. (e.g. price per hour that can vary over a 24hr period or day of the week)
- Invoice a department or external customer for the Hire of asset(s)
- Invoices can be run in bulk and//or individually.
- Include sub-assets on the Hire contract. Either as an additional charge or included FOC. E.g. a tail lift
- Transfer fuel and maintenance spend to Hire contracts to allow for single consolidated invoicing/recharges within a given period.
- Monitor your Hire contracts

Why choose TranSend Hire?

- Full visibility of the profitability of each Hired asset
- Simplified management of Hire asset availability
- Simplified generation of Hire rates
- Bulk creation of Hire consolidated or single Hire invoices
- Inclusion of sub assets and hire rates on the Hire contract to reduce administration and the need for separate contracts
- Reduce the volume of idle fleet
