

LinkSafe for Health & Care

Centralised, customisable contractor management software for future-ready health & care providers.

At LinkSafe by Civica, we recognise the unique challenges faced by the health & care sectors in managing contractors, including the cumbersome manual processes required for ensuring proper documentation and compliance with safety protocols.

Additionally, standard induction processes are often time-consuming and lack consistency, hindering effective onboarding of contractors, allied nurses, doctors, volunteers and more.

The absence of a centralised monitoring system further complicates tracking compliance and maintaining accurate records for audits and inspections, leading to a process that is both cumbersome and prone to errors.

LinkSafe helps you with:

Why choose LinkSafe for your facility?

Our solutions enhance **safety and compliance**, efficiently managing everyone on site with proactive compliance measures and **automated** streamlined processes.

LinkSafe by Civica ensures all facility visitors – from contractors and volunteers to allied staff and in-home carers – meet necessary requirements, maintain compliance and understand all safety protocols before undertaking any tasks.

3000+

Health & care sites managing compliance daily in LinkSafe

Contractors

Efficiently onboard and automatically monitor compliance for all the companies you use (insurances, safety documents, qualifications etc) for all your trades, maintenance, construction etc.

Volunteers

Easily meet requirements for onboarding, inducting and monitoring documentation for all your volunteers, making it quick and easy to ensure all compliance is being met.

Allied Health Professionals

Onboard, induct and automatically monitor compliance and qualifications for all the Allied Professionals that you use across the organisation.

In-Home Care

Streamlined automated process to ensure everyone attending an individual's residence – from physios to garden maintenance, food deliveries to carers – is compliant and allowed to be there, also providing additional security and peace of mind for the residents.
