

LinkSafe for Manufacturing

Centralised, customisable contractor management software for future-ready manufacturing facilities and organisations.

At LinkSafe by Civica, we recognise the unique challenges faced by manufacturing organisations in managing contractors, including the cumbersome manual processes required for ensuring proper documentation and compliance with safety protocols.

Additionally, standard induction processes are often time-consuming and lack consistency, hindering effective onboarding of contractors, suppliers, vendors, volunteers and more.

The absence of a centralised monitoring system further complicates tracking compliance and maintaining accurate records for audits and inspections, leading to a process that is both cumbersome and prone to errors.

LinkSafe helps you with:

Why choose LinkSafe for your Manufacturing Facility?

Our solutions enhance **safety and compliance**, efficiently managing everyone on site with proactive compliance measures and **automated** streamlined processes.

LinkSafe by Civica ensures all site visitors – from contractors and labour hire to suppliers and visitors – meet necessary requirements, maintain compliance and understand all safety protocols before undertaking any tasks.

Contractors

Efficiently onboard and automatically monitor compliance for all the companies you use (insurances, safety documents, qualifications etc) for all your trades, maintenance, construction etc.

Labour Hire

Easily meet requirements for onboarding, inducting and monitoring documentation for all your labour hire workers, making it quick and easy to ensure all compliance is being met.

Logistics & DCs

Streamlined automated processes ensure compliance is maintained when goods enter and leave your factories, facilities, warehousing & distribution centers and retail sites.

Visitors

Streamlined automated processes to capture the required information of all visitors attending your sites.
