

LinkSafe for Produce & Agriculture

Centralised, customisable contractor management software for all your Produce & Agriculture requirements.

At LinkSafe by Civica, we recognise the unique challenges faced by these organisations in managing contractors, including the cumbersome manual processes required for ensuring proper documentation and compliance with safety protocols.

Additionally, standard induction processes are often time-consuming and lack consistency, hindering effective onboarding of contractors, suppliers, tenants and more.

The absence of a centralised monitoring system further complicates tracking compliance and maintaining accurate records for audits and inspections, leading to a process that is both cumbersome and prone to errors.

Why choose LinkSafe for Produce & Agriculture organisations?

Our solutions enhance **safety and compliance**, efficiently managing everyone on site with proactive compliance measures and **automated** streamlined **processes**.

LinkSafe by Civica ensures all site visitors – from contractors and suppliers to drivers and visitors – meet necessary requirements, maintain compliance and understand all safety protocols before undertaking any tasks.

LinkSafe helps you with:

Contractors

Efficiently onboard and automatically monitor compliance for all the companies you use (insurances, safety documents, qualifications etc) for all your trades, maintenance, construction etc.

Suppliers

Easily meet requirements for onboarding, inducting and monitoring documentation for all suppliers & vendors coming onto your sites.

Drivers

Ensure you have all required documentation, inductions, licenses and credentials for anyone working on your behalf.

Visitors

Streamlined automated processes to capture the required information of all visitors attending your sites.
