

CarelinkCloud

Future-proof your delivery and enhance your flexibility with the deployment of your Carelink Suite via the cloud.

Gain peace of mind with advanced security features that guarantee your data is securely stored and handled. CarelinkCloud instills multiple levels of controls within the network infrastructure to provide continuity and protection for all your client and staff information.

CarelinkCloud adapts easily to growing or diminishing your resources to meet your business needs. There is no downtime in your business flow or expensive, unplanned changes. You simply scale your cloud environment on-demand.

Getting your smart software solution up and running is simple with the assistance of our Managed Services Team. You'll benefit from scheduled database upgrades, application administration, user account creation, and disaster discovery.

Whether you've experienced data loss or a malware attack, you understand that these disasters can have a major impact on your business. Secure your critical data with CarelinkCloud. We provide quick data recovery and resolve digital emergencies in no time.

Why choose Selection Panel:

Capture data to support remote work and streamline community care services

Reduce time spent on paperwork with secure cloud-based apps

Get near real-time client and staff data and make more informed decisions.

Key features:

- A centralised point of contact with a dedicated managed services team for your business needs
- Scheduled database upgrades and disaster recovery with no downtime to ensure peace of mind
- Monitoring, alerts, backups, for a proactive approach to keeping your data safe
- Security management that meets the latest global standards

"I contend that we got just as much value from the business re-engineering advice provided by Carelink as we did from the Carelink tool suite."

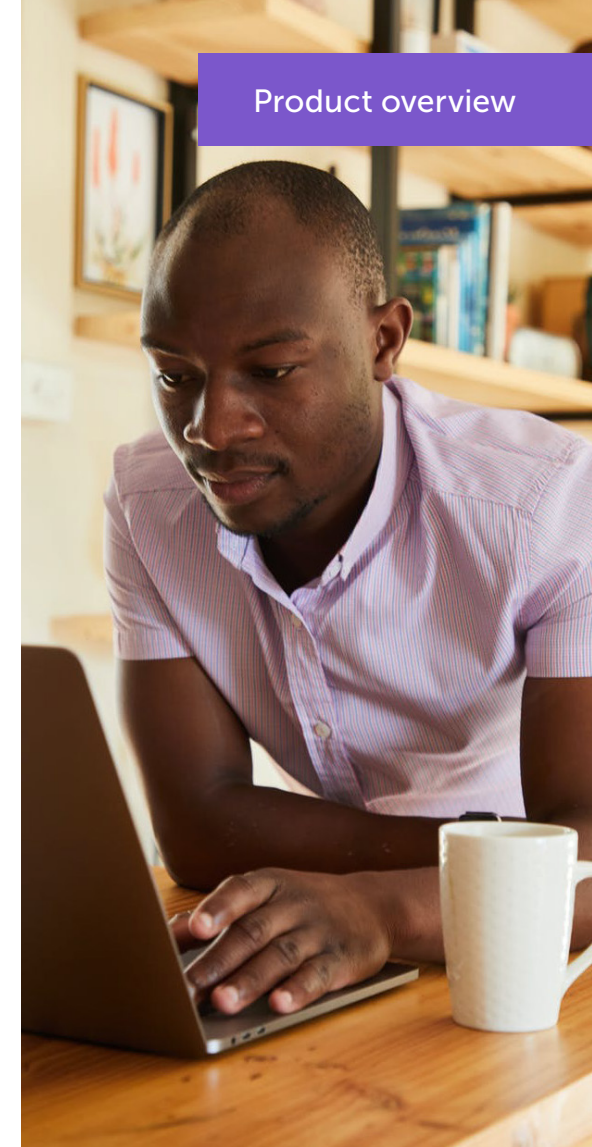

Jake Wilson, Regional PSP Manager, KARI
