

Authority Procure to Pay for local government

Driving efficiencies and savings through a streamlined and integrated procurement process

Intuitive, eInvoicing enabled, Civica's new Procure to Pay solution empowers your finance team to a single source of truth.

Single source of truth

Civica Authority Procure to Pay (P2P) helps you achieve maximum value from the procurement process and improve your financial planning, creating new levels of trust in your data. It improves accuracy and automates invoice matching while providing exception management with full audit history. Your officers can request goods and services easily with intuitive screens.

With dashboard visibility on your purchasing activities, it allows you to make better decisions on real-time data, and even approve on the go with the Authority Connect app.

Fully managed, securely hosted

Authority Altitude is fully managed by us, in our secure cloud, in Australia. The system is constantly updated to take into account legislative changes in the sector. Customers benefit from always being on the latest version with no costly and time-consuming upgrades and have access to unrivalled support.

Automate purchasing processes to save costs and time

With built-in workflows that you can tailor to your need, manual entry and verification is not needed anymore. These empower your finance team to move from transactional interactions to higher value analysis and financial management.

Increase efficiency

Secure and compliant

Enable informed decision making

Main benefits:

- Fully integrated procurement process
- Provides a clear audit trail of transactions, saving time when reporting
