

CIVICA

CostMaster

Clear view of
activity & cost variation

Better health, better care,
better outcomes

Delivering a clear view of activity and cost variation

Civica's CostMaster solution enables end-to-end cost reporting and management for your key decision-makers, from organisation level right down to an individual patient bill. By unifying activity and associated cost information, you can quickly identify clinical and cost variation against best practice, minimising risk. This enables you to deliver efficient services, ensuring better outcomes for both patients and your organisation.

The Solution

A fully managed solution, securely hosted in the cloud, Managed CostMaster enables you to take advantage of the flexibility and scalability of our secure cloud-based platform with 24/7 support from Civica experts to achieve cost savings and efficiencies, lower IT risk and improve performance.

CostMaster is a leading patient level and reference costing solution, developed especially to support healthcare requirements for reporting and local cost management. Reporting can be produced from executive level summary, providing an overall income and cost position, through to individual patient level costing to create a patient's bill.

CostMaster has been designed specifically for the healthcare market to provide useful, timely cost and income information leaving managers with time to manage. Hospitals are able to view costs at patient, consultant and site level in addition to OPCS/ICD10/ Specialty/Service/Point of Delivery level.

Both top down and bottom up costing methodologies are supported giving the hospital total flexibility in how it accounts for its costs. CostMaster also provides full reconciliation to the hospital's general ledger.

We have a dedicated focused on developing and supporting costing and income, giving us complete control of developments and future requirements. Our software and services have been developed with input from many organisations ensuring it is fit for purpose and meets the needs of healthcare finance.

As healthcare costing standards evolve and develop, Civica have always responded by ensuring CostMaster fully meets the requirements from any national guidance.

This focus has meant that CostMaster is well placed to deliver against standards in potentially any international health economy.

Features
