Authority Finance

Gain control over your fiscal operations

Access to real time information allows you to create critical reports with ease.

Real-time data you can trust

With better data insight across your finance, purchasing and budgeting teams, you can review the organizational financial performance at any time, from any location. You can identify problems before they occur with Authority Finance.

Increase productivity

No more time wasted searching multiple data sources to resolve queries. By creating a single view of your data from various sources, your department will spend a fraction of the time tracking expenditure and have more time to focus on strategic community advancement.

> "Technology is key to reducing the cost of doing business and this means there are more taxpayers' dollars to use for the benefit of the community."
